

Roxbury Water Company is currently surveying Chesler Square, Chesler Terrace, and Evergreen Terrace for a water main extension. It has come to our attention that a resident has been distributing a letter to others residing in this area regarding "the importance of having city water brought into your home". Please be advised that this person is not employed by Roxbury Water Company and their letter is not associated with our company in any way.

If you should have any questions or concerns regarding this or the water main extension survey please contact our office directly. 973.584.4118
